### Course Description

This qualification reflects the role of individuals who are developing a range of visual art skills and who may take responsibility for own outputs in work and learning. It applies to work in different visual arts, craft and design environments. Practice at this level is underpinned by the application of introductory art theory and history.

The job roles that relate to this qualification may include Ceramics Studio Assistant, Community Theatre Assistant and Arts, Craft or Design practitioner. It also provides pathways to other visual arts, craft and design job roles. Individuals may work under direction, using some discretion and judgment, and may provide support to a team. They may also work autonomously on familiar tasks within defined work settings.
